We value your concerns about the privacy of the information you have entrusted to us concerning the funeral, cremation, or mausoleum services we provide to you and your family, and are in compliance with the Fair and Accurate Credit Transactions Act (FACT Act or FACTA) Red Flags regulation.

In the process of providing our services to you, such as pre-need financing plans, and gathering death certificate information, it is necessary to collect and maintain nonpublic personal information about you, such as your Social Security number and credit card information. We collect this from the information given for the death certificate, the contract that you signed and other information obtained as a result of your financial transactions with us. Here is how we will keep our privacy promise to you:

- We will not disclose nonpublic personal information about our current or former customers and consumers to any affiliates or non-affiliated third parties except as described below, or as permitted by law.
- We will limit access to nonpublic personal information to those employees, representatives, and service providers who need to know such information in order to serve you. We will maintain physical, electronic and procedural safeguards to protect the security of your nonpublic personal information as required by law.

In the event we collect nonpublic personal information from you in order to provide third-party products and services requested by you (such as filing for insurance), such third-party's use of your information will be subject to their privacy policy as disclosed to you by them.

It is an honor to serve you. We thank you for being our client, and we will continually strive to meet your needs and expectations. We will also strive to promptly reply to your questions and comments regarding our privacy policy.

Our Credit Policy

We are unable to finance funeral and cremation services after death has occurred. We will provide up to three years of interest-free financing for cremation pre-arrangements and up to five years of interest-free financing for funeral pre-arrangements.

It is the policy of the Shrine of Remembrance, and in accordance with our pre-need contracts (when applicable), that all services, merchandise, sales tax, mausoleum property, opening / closing fees and cash advances must be paid for **prior** to services unless other financial arrangements have been made and approved by the company. Mausoleum crypts and niches which are purchased for single or multiple entombments / inurnments must be paid in full prior to being occupied.

Following are the payment options that are available through our firm once death has occurred: Cash, Personal Check (scanned for immediate deposit), Visa, MasterCard, Discover, American Express, Money Order, Cashier's Check, or Insurance Assignment through Funeral Funding Center (4% fee on the amount assigned to the funeral home only).

We are generally unable to accept insurance assignments unless they are handled through Funeral Funding Center.

Complimentary Rose Garden Scattering (private unwitnessed) in our "America the Beautiful" Rose Gardens is included with our cremation services, if wanted.

MEDICAID CREMATION SERVICES

Due to strict death care spending limits (\$2,500.00) imposed by the Department of Human Services (DHS) on Medicaid recipients, the Shrine of Remembrance regrets that it is only able to help families wishing to use Medicaid death benefits for cremation.

Only upon receipt of payment in full from the family and/or written verification of payment forthcoming from DHS, may cremated remains be released and ceremonial services scheduled. Please understand that verification of payment from DHS may take several weeks or longer if the family fails to fully cooperate with DHS.

In order to qualify for death benefits, your loved-one must be receiving Medicaid benefits prior to death. Medicaid funded cremation arrangements cannot exceed \$2,500.00. In most cases, Medicaid will pay up to \$1,500.00. Prior to determining the Medicaid death benefit, the caseworker will, among other things, examine the assets of the deceased. Existing assets are deducted from the death benefit that would be paid if the assets did not exist. For example, if a person passes away and has \$400.00 in a checking account, Medicaid will only pay \$1,100.00 (\$1,500.00 – \$400.00).

The person who signs the promissory note is responsible for the difference between the actual Medicaid death benefit and the bill. Any amount due over the maximum applicable Medicaid Death Benefit (\$1,500.00) must be paid in full prior to services being rendered.

Please note that final resting places (e.g. mausoleum crypts, niches, columbaria, and rose gardens) are exempt from Medicaid spending limits. In other words, families utilizing Medicaid benefits for cremation can still purchase an appropriate final resting place and memorialization for their loved one.

IN THE EVENT OF THE DEATH OF AN INFANT, CHILD, OR YOUNG TEEN

The following special discount allowance applies to our standard funeral home charges for services selected. It does not include merchandise, sales tax, mausoleum property and cash advances.

SHRINE OF REMEMBRANCE OUTER BURIAL CONTAINER PRICE LIST

(December 1, 2024)

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not collapse. Either a grave liner or a burial vault will satisfy these requirements.

Your Director will advise you on the minimal requirements of the applicable cemetery. The following costs are for local, weekday vault installation and do not include separate charges that may be due to the cemetery for vault installation or supervision fees.

MAUSOLEUM SERVICES

(December 1, 2024)

We would like to bring to your attention that the cost of mausoleum entombment/inurnment in a clean, dry, ventilated crypt/niche chamber at the Shrine of Remembrance is often preferred to cemetery ground burial. Cemetery interment requires the separate purchase of graves, opening/closing, burial vaults, and tombstones. In addition, many families spend additional money for higher quality, protective caskets for ground burial.

With mausoleum entombment or inurnment, all of these separate purchases can be consolidated into one, easy transaction as protective caskets, burial vaults and tombstones are not needed and opening/closing fees are less expensive than most cemeteries.

MAUSOLEUM CRYPTS from 6,500.00 / person

ADDITIONAL INURNMENT RIGHTS
Additional inurnment rights may be purchased for placement of cremated remains in a crypt or niche (space permitting). The cost is 25% of the current retail price of the crypt/niche (single) or \$450.00, whichever is greater, plus endowment care (10%) and memorialization. Additional inurnments are generally limited to one per casket space in a crypt and one per niche, due to space constraints.

Social Security should be notified as soon as possible when a person dies. In most cases, the funeral director will report the person's death to Social Security. You will need to furnish the funeral director with the deceased's Social Security number so he or she can make the report.

Some of the deceased's family members may be able to receive Social Security benefits if the deceased person worked long enough under Social Security to qualify for benefits. You should get in touch with Social Security as soon as you can to make sure the family receives all of the benefits to which it may be entitled. Please read the following information carefully to learn what benefits may be available.

- A one-time payment of \$255 can be paid to the surviving spouse if he or she was living with the deceased; or, if living apart, was receiving certain Social Security benefits on the deceased's record. If there is no surviving spouse, the payment is made to a child who is eligible for benefits on the deceased's record in the month of death.
- Certain family members may be eligible to receive monthly benefits, including:
 - ◆ A widow or widower age 60 or older (age 50 or older if disabled);
 - ◆ A widow or widower at any age who is caring for the deceased's child under age 16 or disabled;
 - ◆ An unmarried child of the deceased who is:
 - Younger than age 18 (or up to age 19 if he or she is a full-time student in an elementary or secondary school); or
 - Age 18 or older with a disability that began before age 22;
 - ◆ A stepchild, grandchild, step-grandchild or adopted child under certain circumstances;
 - ◆ Parents, age 62 or older, who were dependent on the deceased for at least half of their support; and
 - ◆ A surviving divorced spouse, under certain circumstances.

If the deceased was receiving Social Security benefits, you must return the benefit received for the month of death or any later months. For example, if the person dies in July, you must return the benefit paid in August. If benefits were paid by direct deposit, contact the bank or other financial institution. Request that any funds received for the month of death or later be returned to Social Security. If the benefits were paid by check, do not cash any checks received for the month in which the person dies or later. Return the checks to Social Security as soon as possible.

However, eligible family members may be able to receive death benefits for the month in which the beneficiary died.

We treat all calls confidentially. We can answer specific questions from 8 a.m. to 7 p.m., Monday through Friday. We can provide information by automated phone service 24 hours a day. We also want to make sure you receive accurate and courteous service. That is why we have a second Social Security representative monitor some telephone calls.

Our funeral home will assist your family in the process of procuring certified Death Certificates. These Death Certificates will help your family with legal and monetary needs that present themselves after a death occurs. The process of procurement includes: gathering information from the family and reviewing it with them for accuracy; identifying and corresponding with the appropriate doctor and, if necessary, obtaining a coroner's counter-signature; requesting a disposition permit; and then filing the original certificate with the appropriate county to request the certified Death Certificates.

Since death certificates are reviewed for accuracy by the family before they are filed, if subsequent errors are found, please understand that it will be your responsibility to once again pay for any corrected certified copies. The Vital Records Office will also require a \$20 fee to file the replacement certificate.

When a death occurs in El Paso County, we generally state that the initial order of certified copies will be in your hands in **two to four weeks**. If the death occurred in another county or state, it may take longer. Our funeral home staff makes every effort to expedite the receipt of these certified copies of the Death Certificates to your family.

When the certified copies arrive back in our offices, we will contact you immediately to let you know that they are available to be picked up. If Death Certificates are to be mailed, we recommend that they be mailed Certified via the United States Postal Service, due to their value and for matters of confidentiality. If Death Certificates are to be sent via FedEx, there will be an additional charge. Later, should additional copies be needed, they may be easily obtained directly from the county in which the certificate was filed. Our local El Paso County Department of Vital Statistics is located at 1675 West Garden of the Gods Road, Suite 2044, Colorado Springs, Colorado 80907, phone 719-575-8492.

Cases Involving the El Paso County Coroner

Please note that certificates that require the signature of the **El Paso County Coroner** as the primary signer may take significantly longer and may not be ready for **eight to twelve weeks**. If you are waiting for the Coroner's signature, a certified *deferred* Death Certificate (cause of death will not appear on this death certificate) can be requested. Prior to placing an order for these, we caution you to contact the institutions that you wish to present this to, as it may not be accepted. The cost for these deferred Death Certificates (\$20 for the first, and \$13 for each subsequent copy) is the same as the final Death Certificates.
